

CALL FOR PAPERS

ICCMBE 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMBE 2022 : International Conference on Computational and Mathematical Biomedical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational and Mathematical Biomedical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical Electronics
Clinical Biochemistry
Biomechatronics
Biomaterials
Biophysics
Biomechanics of Injury and Wound
Healing
Bionics
Cellular, Tissue and Genetic
Engineering
Medical Engineering Systems and
Applications
Biomedical Intelligence and
Clinical Data Analysis
Orthopedic Bioengineering
Rehabilitation Engineering

Systems Physiology
Bionanotechnology
Bioinformatics of Diseases
Bioinstrumentation
Toxicology
Immunology
Neural Engineering
Social and Preventive Medicine
Sport and Exercise Medicine
Injury Prevention and Health
Protection
Medical Robotics
Computational Systems Biology
