

# CALL FOR PAPERS

**ICNER 2022**  
**Aug 19-20, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNER 2022 : International Conference on Nano Energy Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano Energy Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano energy and nanosystems  
Nano energy technologies  
Nano-scale advances in catalysis  
and energy applications  
Energy harvesting nanotechnologies  
Nanogenerators and energy  
harvesting

Self-powered sensors and systems  
Piezotronics and  
piezo-phototronics  
Energy storage and self-charging  
power systems  
Solar cells and hybridized energy  
cells  
Photocatalysis and water splitting
