

CALL FOR PAPERS

ICUSCUAQ 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUSCUAQ 2022 : International Conference on Urban Street Canyons and Urban Air Quality is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Street Canyons and Urban Air Quality. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban street canyons
Temperature and wind
Wind parallel to canyon
Wind perpendicular to canyon
Green infrastructure and urban air quality

GPS signal reception
Concentration and flow
distributions in urban street
canyons
Modelling atmospheric composition
in urban street canyons
Modelling air quality in urban
street canyons
Assessment of thermal comfort in
urban street canyons
