

CALL FOR PAPERS

ICNDDS 2022
Aug 05-06, 2022
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDDS 2022 : International Conference on Nanotechnology in Drug Delivery Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanotechnology in Drug Delivery Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano-drug delivery
Nanotechnology in drug delivery
Drug delivery and nanoparticles
Nanoparticle formulations in drug delivery
Nanotechnology-based drug delivery systems
Design of nanotechnology-based drug delivery systems
Routes of nano-drug delivery
Advances in design, optimization, and adaptation of gene delivery systems

Nanoparticle-mediated delivery of siRNA
Targeting cancer cells with nanoparticles
Targeting angiogenesis with nanoparticles
Nanosystems in inflammation
Cellular and intracellular targets
Toxicological hazards of nanoparticles
Evidence for nanoparticle toxicity
Toxicological effects of nanoparticles
