

# CALL FOR PAPERS

**ICMAP 2022**  
**Aug 23-24, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAP 2022 : International Conference on Museum Architecture and Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Museum Architecture and Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Museum architecture and design  
Contemporary trends in museum architecture  
Soviet museum architecture  
Museum buildings  
Structural museum design  
Analysis of museum design projects  
Innovative museum design and construction planning  
Sustainable museum planning, design and construction  
Sustainability in museum design  
Principle and secondary aesthetic design factors  
Aesthetic guidelines for museum design  
Museum architecture and design codes and standards

Aesthetics considerations in museum architecture and design  
Environmentally compatible museum architecture and design solutions  
Impacts of innovative materials in museum architecture and design  
Architecture, construction and environmental engineering  
Structure plans, specifications and estimate development  
Structure types and components  
Principles of museum architecture and design  
Functional clarity  
Scale and proportion  
Order and balance  
Simplicity and continuity  
Site/environment integration
