

CALL FOR PAPERS

ICCPSP 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPSP 2022 : International Conference on Catalyst Poisoning and Selective Poisoning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Catalyst Poisoning and Selective Poisoning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Catalyst poisoning
Poison adsorption
Poison-induced surface
reconstruction
Compound formation
Poisoning process
Common catalyst poisons

Selective poisoning
Palladium catalyst
Intentional palladium catalyst
poisoning
Catalytic converter
Catalyst poisoning and reactivation
