

CALL FOR PAPERS

ICFWMP 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFWMP 2022 : International Conference on Farm Waste Management Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Farm Waste Management Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural pollution
Agricultural waste management
Practices and technology
Farm waste management practices
Environmental regulation
Abiotic sources
Pesticides
Pesticide leaching
Fertilizers
Leaching, runoff, and
eutrophication
Organic contaminants
Heavy metals
Land management

Tillage and nitrous oxide
emissions
Soil erosion and sedimentation
Biotic sources
Greenhouse gases from fecal waste
Biopesticides
Introduced species
Invasive species
Biological control
Genetically modified organisms
(GMO)
Genetic contamination and
ecological effects
GMO as a tool of pollution
reduction
Animal management
Manure management
