

# CALL FOR PAPERS

**ICTSVCBF 2022**  
**Aug 16-17, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSVCBF 2022 : International Conference on Traffic Sign Visibility, Color and Brightness Factors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Traffic Sign Visibility, Color and Brightness Factors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Highway sign visibility	Visual perception
Traffic sign visibility standards	Photometry
Visibility distance of highway signs	Traffic sign regulations
Highway sign visibility measurement systems	Visual acuity
Factors in highway sign visibility	Contrast sensitivity
Reflectorization and illumination	Sign placement
Color and brightness factors	Message design
Size effects on visibility	Nighttime visibility of traffic signs
Measures of size effectiveness
