

CALL FOR PAPERS

ICNNSE 2022
Aug 12-13, 2022
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNNSE 2022 : International Conference on Neuro-Nanotechnology and Neural Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neuro-Nanotechnology and Neural Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanotechnology in neurology
Neuronanomedicine
Nanotechnology in neural prostheses
Nanotechnology in neuro-robotics
Nanotechnology in neural systems engineering
Engineering neural systems
Computational neuroscience and nanotechnology
Peptide nanofibers in neurology
Carbon nanotubes in neuro-nanotechnology

Nanotechnology-based brain drug delivery
Nanotechnology tools for neuroscience and brain activity mapping
Nanotechnology methods for neurological diseases and brain tumors
Advances in neuro-nanotechnology and applications
Nanotechnology in neurology
Nanotechnologies in neuroscience and neuroengineering
Genesis, current status, and future prospects
Automatic regulation of drug delivery at neuron level
