

CALL FOR PAPERS

ICBB 2022
Aug 05-06, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBB 2022 : International Conference on Biometrics and Biostatistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biometrics and Biostatistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptive Biometric Systems
Applied Clinical Biostatistics
Bayesian Methods in Clinical Research
Bayesian Statistics
Beyond Proportional Hazards
Bioinformatics
Bioinformatics Algorithms and Databases
Biometric Algorithms
Biometric Conformance Test, Test Architecture and Methodology
Biometric Devices
Biometric Enabled Intelligence
Biometric security
Biometrics and Biostatistics

Biometrics Applications
Biostatistics - An Approach to Bioinformatics
Biostatistics applications
Biostatistics for High Dimensional Data
Clinical Biostatistics
Clinical Trial Simulations
Complex Survival Data
Computational Systems Biology
Computer Science and Systems Biology
Design and Analysis of Clinical Trials
Design and Analysis of Vaccine Studies
Emerging and Future Applications of Biometrics
Joint Modelling in Practice
