

CALL FOR PAPERS

ICFISSD 2022
Aug 05-06, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFISSD 2022 : International Conference on Farm Irrigation Systems and System Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Farm Irrigation Systems and System Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural irrigation
Agricultural irrigation systems
Irrigation and drainage
Agricultural structures and irrigation
Irrigation canals and flumes
Irrigation districts
Irrigation engineering
Irrigation water requirement
Agricultural irrigation equipment
Present extent
Types of irrigation
Surface irrigation
Localized irrigation

Subsurface irrigation
Perennial irrigation
Intermittent-flow irrigation
Continuous flow irrigation
Farm irrigation efficiency
Drip irrigation
Irrigation using sprinkler systems
Irrigation using center pivot
Sub-irrigation
Irrigation automatically,
non-electric using buckets and ropes
Irrigation using water condensed from humid air
In-ground irrigation
Water sources
