

CALL FOR PAPERS

ICVPAV 2022
Aug 19-20, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVPAV 2022 : International Conference on Visual Prosthesis and Artificial Vision is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visual Prosthesis and Artificial Vision. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual prosthesis
Artificial sight and visual sciences
Visual prosthesis design and analysis
Cortical visual prosthesis
Epiretinal visual prosthesis
Subretinal visual prosthesis
Optic nerve visual prosthesis

Thalamic visual prosthesis
Current issues in vision prostheses
Wearable computer vision systems for a cortical visual prosthesis
Visual prosthesis for optic nerve stimulation
Different approaches to the development of visual prostheses
Fabrication for visual implantable systems
