

CALL FOR PAPERS

ICAESFCP 2022
Aug 16-17, 2022
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAESFCP 2022 : International Conference on Aerospace Engineering and Space Flight Control Problems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Engineering and Space Flight Control Problems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace engineering
Structural mechanics control
problems
Propulsion systems control
problems
Flight mechanics control problems
Space flight control problems
Vibration suppression
Passive control
Active dynamic control
Smart materials for control
applications

Thermal efficiency
Acoustic transmission optimization
Jet engine control
Transmission control
Combustion efficiency
Aeroelastic coupling problem
Re-entry orbit problem
Transfer orbit problem
