

# CALL FOR PAPERS

**ICEMC 2022**  
**Aug 23-24, 2022**  
**Budapest, Hungary**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMC 2022 : International Conference on Embodied Mathematical Cognition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Embodied Mathematical Cognition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Grounded and embodied mathematical cognition  
Embodiment of mathematical thinking  
Embodied strategies in mathematical cognition  
Mathematical cognition as embodied simulation

Embodied cognition and the nature of mathematics  
Computational math cognition and embodied arithmetic  
Mathematical imagination and embodied cognition  
Robotic models of mathematical cognition
