

# CALL FOR PAPERS

**ICWISDM 2022**  
**Aug 16-17, 2022**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWISDM 2022 : International Conference on Web Information Systems Design and Modelling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Information Systems Design and Modelling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web information system  
Web information mining  
Web information mining algorithm  
Web information systems analysis and design  
Web information systems development and implementation  
The co-design approach  
Data-intensive web information systems  
Content-intensive applications

View integration and cooperation in databases, data warehouses and web information systems  
User preferences, obligations and rights  
Strategic modeling of web information systems  
Conceptual modelling of web information systems  
Privacy enhanced information systems  
Web information systems with navigational patterns  
Data quality in web information systems
