

CALL FOR PAPERS

ICWMWG 2022
Aug 16-17, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMWG 2022 : International Conference on Wave Modelling and Wave Generation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wave Modelling and Wave Generation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wave modelling
Numerical wave modelling
Ocean wave modeling and forecasting systems
Wind-wave modelling

Wave generation, calibration and analysis
Nonlinear random and extreme waves
Wave basin effects and mitigation
Coupling between experimental and numerical waves
