

CALL FOR PAPERS

ICEPA 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPA 2022 : International Conference on Enumeration Problems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Enumeration Problems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications in biology, data
mining, logic, and databases
Approximate enumeration and
counting
Combinatorial enumeration and
counting

Input-sensitive algorithms
Output-sensitive algorithms
