

# CALL FOR PAPERS

**ICESD 2022**  
**Aug 23-24, 2022**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESD 2022 : International Conference on Environmental Science and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Science and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Science and Development	Oil spills
Environmental Science and Engineering	Bioremediation
Water pollution and treatment	Biofuels
Air pollution and treatment	Environmental safety regulations
Soil pollution and treatment	Greenhouse effect, global warming, and climate change
Groundwater issues	Environmental protection
Wastewater management and treatment	Impact of industrialization on the environment
Waste management and Environment	Pollution and health issues
Green manufacturing and technologies, Pollution prevention	Environmental sustainability and development
Desalination	Environmental education programs
Renewable and non-renewable energies	Nanotechnology impacts on environment
Energy management	Environmental risk assessments
