

CALL FOR PAPERS

ICIE 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIE 2022 : International Conference on Implant Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Implant Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Implant design
Implant design, geometry and placement
Biomechanics of implant placement and loading
Bone healing considerations
Loading protocols
Primary implant stability
Secondary implant stability
Implant geometry
Static and dynamic stresses
Insertion torque
Perifixtural bone loss
Bone-implant interface
Implant surface designs

Macro design
Micro design
Implant materials
Surface morphology
Surface coating
Thread shape
Thread design
Implants with different lengths
Implant width
Technological innovations, opportunities and challenges
Clinical technology
Clinical healthcare technology
Health information technology
