

CALL FOR PAPERS

ICSPP 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPP 2022 : International Conference on Seasonal Precipitation Patterns is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Seasonal Precipitation Patterns. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|--|
| Seasonal precipitation patterns | Changes in precipitation |
| Seasonal precipitation | Patterns of change |
| Spatial and seasonal patterns in climate change, temperatures, and precipitation | Precipitation processes |
| Temperature trends and precipitation | Factors in patterns of change |
| Global patterns of precipitation | Model projections |
| Seasonal precipitation forecast | Future challenges |
| Global seasonal precipitation anomalies | Dynamics of precipitation distributions |
| Seasonal variation of oceanic precipitation patterns | Estimation of seasonal precipitation |
| Seasonal variation of area-weighted mean precipitation | Modelling seasonality |
| Ocean circulation and precipitation patterns | Seasonal precipitation timing and ice core records |
| Changes in water vapor | Standardized streamfunction anomalies |
