

# CALL FOR PAPERS

**ICWCTMC 2022**  
**Aug 23-24, 2022**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCTMC 2022 : International Conference on Wildlife Control Technologies, Management and Conservation is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Control Technologies, Management and Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife technologies

Imagining wildlife and new technologies

Wildlife tracking technology

Wildlife technology research and development

Scientific methods used to study wildlife populations

Wildlife control technology

GIS for wildlife management

GIS for wildlife conservation

Technologies to benefit agriculture and wildlife

Emerging technologies to fight wildlife crime

Application of spatial technologies in wildlife biology

Wildlife conservation

Monitoring and recording networks

Human-wildlife relations

Traditional wildlife monitoring schemes

New networks for monitoring wildlife

Traditional methods

Radar

Genetic markers

Weather radar

Airfield surveillance radar

Marine radar

Imaging technologies

Thermal infrared imaging

High-definition aerial photography

Satellite imagery
