

CALL FOR PAPERS

ICATC 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATC 2022 : International Conference on Applied Theoretical Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Theoretical Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Theoretical chemistry
Quantum chemistry and mechanics
Electronic structure
Chemical reaction dynamics and catalysis
Statistical mechanics
Condensed phase
Molecular dynamics for bio/macro molecules

Modeling materials/nano science
Molecular quantum mechanics
Computational quantum chemistry
Molecular mechanics and quantum chemistry
Quantum chemistry and molecular spectroscopy
Quantum chemistry and physical chemistry
