

CALL FOR PAPERS

ICNER 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNER 2022 : International Conference on Nano Energy Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano Energy Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano energy and nanosystems
Nano energy technologies
Nano-scale advances in catalysis
and energy applications
Energy harvesting nanotechnologies
Nanogenerators and energy
harvesting

Self-powered sensors and systems
Piezotronics and
piezo-phototronics
Energy storage and self-charging
power systems
Solar cells and hybridized energy
cells
Photocatalysis and water splitting
