

CALL FOR PAPERS

ICBEES 2022
Aug 23-24, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEES 2022 : International Conference on Building Engineering and Ecological Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Building Engineering and Ecological Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building Engineering and Ecological Sciences
Advanced Construction Materials
Architectural Design and Its Theory
Architectural Environment and Equipment Engineering
Architecture and Building Materials
Asset Management
Building Acoustics
Building Automation and Management System
Building Energy Saving Technology
Biosystems and Environment
Chemical Waste Treatment
Clean, Renewable and New Energy
Computational and Mathematical Modeling and Simulation

Cultural heritage & architectural issues
Earth and Environmental Sciences
Ecological Systems
Ecosystems analysis and protection
Ecotoxicology, Energy and environment
Environment and Human Health
Environment, Cities and Society
Environmental Chemistry
Environmental Economics and Education
Environmental Engineering Systems
Environmental Friendly Materials
Environmental Integrated Management and Policy Making
Environmental Legislation and Policy
