

CALL FOR PAPERS

ICCMSA 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMSA 2022 : International Conference on Computational Methods for Scientific Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Methods for Scientific Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational Methods, Algorithms
and Scientific Application
Computational Biology
Computational Combustion
Computational Chemistry
Computational Fluid Dynamics
Computational Physics

Computational Geometry
Computational Mathematics
Computational Mechanics
Computational Electro-magnetics
Numerical Methods and Algorithms
