

# CALL FOR PAPERS

**ICCPSP 2022**  
**Aug 16-17, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPSP 2022 : International Conference on Catalyst Poisoning and Selective Poisoning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Catalyst Poisoning and Selective Poisoning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Catalyst poisoning  
Poison adsorption  
Poison-induced surface  
reconstruction  
Compound formation  
Poisoning process  
Common catalyst poisons

Selective poisoning  
Palladium catalyst  
Intentional palladium catalyst  
poisoning  
Catalytic converter  
Catalyst poisoning and reactivation
