

# CALL FOR PAPERS

**ICEAHS 2022**  
**Aug 16-17, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAHS 2022 : International Conference on Engineering Applications for Healthcare Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Applications for Healthcare Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering for healthcare systems  
Healthcare system management,  
improvement and reform  
Quality, cost, efficiency,  
effectiveness  
Operations research and systems  
engineering  
Lean, six sigma, total quality  
management  
Human factors  
High reliability organization  
Resilience engineering  
Rural health  
Healthcare information systems  
Electronic health record

E-health  
M-health  
Telemedicine  
Wireless technology  
Data mining and big data  
Information security  
Healthcare facilities  
Healthcare infrastructure  
Healthcare energy systems  
Healthcare sustainability and green  
design  
Environmental health and safety
