

CALL FOR PAPERS

ICECT 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECT 2022 : International Conference on Erosion Control Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Erosion Control Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Erosion control
Mathematical modeling
Erosion control practices
Surface runoff
Erosion measurement and control techniques
Geosynthetic erosion control systems
Erosion prevention and sediment control
Water erosion-dominated zone

Wind erosion-dominated zone
Freezing erosion dominated zone
Comprehensive soil erosion control systems and measures
Erosion control in agriculture
Erosion control in land development
Erosion control in coastal areas
Erosion control in river banks
Erosion control in construction
