

# CALL FOR PAPERS

**ICIFPA 2022**  
**Aug 16-17, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIFPA 2022 : International Conference on Internet Forensic Process and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Internet Forensic Process and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Internet forensics  
Internet history  
Addressing and services  
Internet authorities and registries  
Internet architecture and protocols  
IP addresses and domains  
Web browser architectures and data  
SQLite database binary analysis and query structure  
ESE and index.dat data storage  
Web server administration  
forensics  
Social network artefacts  
Email  
Internet-specific crime

Advances in internet forensics  
Internet security: attacks and controls  
Analysis of attacks, defenses, and countermeasures  
Anonymity, privacy, id theft and ethics  
Dependability and security  
forensics  
Denial-of-service and botnet analysis, detection, and mitigation  
Cybercrime toolkit development  
Securing wireless sensor networks  
Web service security  
Problem in cyber ethics  
Mobile ad hoc network security vulnerabilities  
Cybercrimes and profiling system  
Impact of big data on security
