

CALL FOR PAPERS

ICIV 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIV 2022 : International Conference on Information Visualization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Visualization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical Visualization and Applications
Flow Visualization
GPU-based Visualization
Image/Video Summarization and Visualization
Scientific Visualization
Multi-field Visualization
Parallel Visualization
Uncertainty Visualization
Vector/Tensor Field Visualization
Virtual Environments and Data Visualization
Volume Visualization
Knowledge-assisted Visualization
Interpretation and Evaluation
Methods

Interactive Visual Interfaces for Visualization
Large Data Visualization
Perception and Cognition in Visualization
Time-dependent Visualization
Usability Studies and Visualization
Visualization Applications
Visualization Taxonomies and Models
Visualization Algorithms and Technologies
Visualization Tools and Systems for Simulation and Modeling
Glyph-based Visualization
Collaborative Visualization
Coordinated and Multiple Views
Information Visualization
