

CALL FOR PAPERS

ICMIC 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIC 2022 : International Conference on Marine Invertebrates and Conservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Invertebrates and Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine invertebrates	Classification of marine invertebrates
Marine ecosystems	Global diversity of marine invertebrates
Human disturbances	Marine sponges
Coastal shoreline development	Marine cnidarians
Climate change	Marine worms
Conservation planning	Anemones and corals
Importance of marine invertebrates	Jellyfish
Feeding marine invertebrates	Hydroids
Chemical ecology of benthic marine invertebrates	Barnacles
Macro- invertebrates in marine soft sediments	Echinoderms
Reproduction and development of marine invertebrates	Marine molluscs
Recruitment of marine invertebrates	Marine arthropods
Evolution in marine invertebrates	Minerals from sea water
