

CALL FOR PAPERS

ICMWWT 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMWWT 2022 : International Conference on Microbiology of Water and Wastewater Treatment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbiology of Water and Wastewater Treatment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbiology of Water
Microbiology of Drinking Water
Microbiological Water Pollution
Microbiology Quality of Water
Water Culture in Microbiology
Advances in Water Microbiology
Test
Water microbiology Indicator
Aquatic Fungi

Microbiology of Wastewater
Treatment
The Microbiology of Phosphorus
Removal in Activated Sludge
Anaerobic Treatment Processes
The Nitrogen Cycle and Its
Application in Wastewater
Treatment
Low-cost Treatment Systems
Microbial Interactions in
Facultative and Maturation Ponds
Problem in Wastewater Treatment
