

CALL FOR PAPERS

ICPHV 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPHV 2022 : International Conference on Prosthetic Heart Valves is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Prosthetic Heart Valves. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vitamin D intake and the risk of heart disease
Influence of diet and gut flora on cardiovascular diseases
Statin therapy for prevention of heart diseases
Mental stress and its gender-specific link to coronary diseases
Thrombolytic therapy in stroke

Pacemakers and implantable defibrillators: new developments
Prosthetic heart valves and associated complications
Cardiac rehabilitation
Cardiopulmonary resuscitation
Cardiac stem cells
