

CALL FOR PAPERS

ICREEET 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREEET 2022 : International Conference on Renewable Energy and Energy Efficient Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy and Energy Efficient Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy efficiency technologies
Energy-efficient products
Energy-saving technologies
Emerging technologies for energy efficiency
Energy saving and efficient energy use by power electronic systems
Electrical energy efficiency: technologies and applications
Energy-efficiency technologies for reduction of CO₂ emissions
Renewable energy, energy efficiency and management
Energy-dependent activities

Energy supply chain
High-efficiency heat pumps that reduce or eliminate the use of GHG-emitting refrigerants
Thin insulating materials
Windows and building surfaces with tunable optical properties
High efficiency lighting devices, including improved green LEDs, phosphors and quantum dots
Improved software for optimizing building design and operation
Energy harvesting sensors and controls
Interoperable building communication systems and optimized control strategies
