

CALL FOR PAPERS

ICSALS 2022
Aug 16-17, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSALS 2022 : International Conference on Suitability Analysis and Landscape Sensitivity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Suitability Analysis and Landscape Sensitivity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Site suitability analysis
Site suitability mapping
Site suitability assessment
Suitability in GIS context
Geographical information system applications
Land-use suitability analysis
Landscape sensitivity
Retail site selection
Suitability analysis in agriculture and wildlife

Site suitability analysis for urban development
Town planning
Possibility space
Analysis methods
Gestalt method
Ordinal combination method
Linear combination method
Values suitability analysis
Analytic hierarchy process
