

# CALL FOR PAPERS

**ICTSDP 2022**  
**Aug 16-17, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSDP 2022 : International Conference on Traffic Sign Design and Placement is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Traffic Sign Design and Placement. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Traffic signs	Identifying needs and establishing requirements
Traffic sign design	Developing alternative designs
Traffic symbols, and their colours and shapes	Building interactive versions
Traffic signs in traffic psychology	Evaluating designs
Traffic signs in transportation engineering	Design principles
Traffic sign engineering and technologies	Spatial compatibility
Automatic traffic sign recognition	Conceptual compatibility
Regulatory signs	Physical representation
Warning signs	Frequency
Information/directional signs	Standardization
Temporary condition signs	Singular functionality
Interaction design and traffic signs	Visibility
