

CALL FOR PAPERS

ICCDEP 2022
Aug 05-06, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDEP 2022 : International Conference on Crystal Defect Engineering and Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Crystal Defect Engineering and Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Crystal defect engineering
Crystal growth research
Crystal growth technology
Shape, crystal structure, and defect engineering
Defects in crystals
Intrinsic and extrinsic defects
Line defects
Two-dimensional defects
Volume defects
Crystal defects
Crystallographic defect
Thermomechanical processing
Point defects

Line defects
Planar defects
Bulk defects
Volume defects
Two-dimensional defects
Mathematical classification methods
Computer simulation methods
Vacancies
Interstitials
Impurities, weight and atomic composition
Interstitial solid solutions
Composition / concentration
Composition conversions
