

CALL FOR PAPERS

ICVICM 2022
Aug 05-06, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVICM 2022 : International Conference on Visual Information Communication and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visual Information Communication and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual information communication
Visual communication design
Visual communication techniques
Visual analysis

Visual navigation with schematic
maps
Visualized feature modeling
Visual modeling languages
