

CALL FOR PAPERS

ICVM 2022
Aug 05-06, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVM 2022 : International Conference on Volcanology and Mineralisation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Volcanology and Mineralisation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic and volcanic hazards
Volcanic degassing
Volcanic hazard evaluation and mitigation
Environmental impacts of volcanic eruptions
Monitoring active volcanism from satellites

Volcanism in glacial environments
Evolution of volcanic landforms
Volcano hazard and risk research
Environmental effects of geological hazards
