

CALL FOR PAPERS

ICNNSE 2022
Aug 12-13, 2022
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNNSE 2022 : International Conference on Neuro-Nanotechnology and Neural Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neuro-Nanotechnology and Neural Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanotechnology in neurology
Neuronanomedicine
Nanotechnology in neural
prostheses
Nanotechnology in neuro-robotics
Nanotechnology in neural systems
engineering
Engineering neural systems
Computational neuroscience and
nanotechnology
Peptide nanofibers in neurology
Carbon nanotubes in
neuro-nanotechnology

Nanotechnology-based brain drug
delivery
Nanotechnology tools for
neuroscience and brain activity
mapping
Nanotechnology methods for
neurological diseases and brain
tumors
Advances in neuro-nanotechnology
and applications
Nanotechnology in neurology
Nanotechnologies in neuroscience
and neuroengineering
Genesis, current status, and future
prospects
Automatic regulation of drug
delivery at neuron level
