

CALL FOR PAPERS

ICMIIP 2022
Sep 16-17, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIIP 2022 : International Conference on Medical Imaging and Information Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Medical Imaging and Information Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information Processing in Medical Imaging
Image Analysis and Signal Processing
Shape Representation and Analysis
Image Registration and Fusion
Functional and Molecular Imaging
Image Acquisition Methods and Devices
Computational Physiology
Machine Learning

Data Visualization
Statistical and Mathematical Models
Image Reconstruction
Image Interpretation and Computer Aided Diagnosis
Imaging and Genomics
Objective Assessment of Image Quality
Image Guided Surgery
Medical Physics and Biomedical Engineering
