

CALL FOR PAPERS

ICACGA 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACGA 2022 : International Conference on Agrochemicals and Chemical Growth Agents is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agrochemicals and Chemical Growth Agents. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainability of crop production,
processing and consumption
Agricultural biotechnology
Field crops
Land and water management
Technology and sustainable
agriculture best practices
Private and public sectors
collaboration in agriculture
technology development
Climate change impacts, mitigation
and adaptation
Renewable energy sources and
sustainable agriculture
Resiliency of agriculture crops
with climate change
Fruits and citrus
Greenhouses and horticulture
Agricultural buildings
Classes of plant hormones

Hormones and plant propagation
Agricultural machinery
Fertilisers and chemicals
Irrigation and water management
Plants, seeds and propagation
materials
Plant protection and fertilization
Post harvest treatment
Nanotechnologies in agriculture
Food price volatility and market
instability
Animal conservation and
sustainability
Livestock, dairy farming and small
ruminants
Veterinary and feeding system
Poultry farming
