

# CALL FOR PAPERS

**ICCSSE 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSSE 2022 : International Conference on Computer Science and Software Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science and Software Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence  
Artificial Neural Networks  
Automated Problem Solving  
Brain Modeling  
Case-based Reasoning  
Cognitive Science  
Collaborative Filtering  
Computational Intelligence  
Intelligent Agents  
Intelligent Information Fusion  
Knowledge Discovery and Management  
Learning and Adaptive Sensor  
Fusion  
Natural Language Processing

Neural Networks and Applications  
Pattern Recognition  
Robotics  
Swarm Intelligence  
Computer Graphics  
Computer Vision & Scientific  
Visualization  
Data Compression for Graphics  
Geometric Computing  
Graphics Systems Architecture  
Interaction Techniques and HCI  
Rendering Techniques  
Shape, Surface & Physically Based  
Modeling
