

# CALL FOR PAPERS

**ICEC 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEC 2022 : International Conference on Electrotecnics and Circuits is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrotecnics and Circuits. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics and electrical engineering  
Computer science applications  
Circuits, devices and systems  
Materials for electrotechnics  
Power electronics and power drives  
Electric vehicle technologies  
Nanoelectromechanical system  
Measuring technology and instruments  
Photonics and optoelectronics  
Computers, software and applications

Control and robotics  
Power electronics and energy systems  
Communications and networking  
Signal and multimedia processing  
Biomedical and health informatics  
Smart grids and renewable energy  
Computation intelligence in electrical engineering  
Biomedical electronics and bioinformatics  
Distributed generation, fuel cells and renewable energy systems
