

CALL FOR PAPERS

ICEC 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEC 2022 : International Conference on Electrotecnics and Circuits is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrotecnics and Circuits. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics and electrical engineering
Computer science applications
Circuits, devices and systems
Materials for electrotechnics
Power electronics and power drives
Electric vehicle technologies
Nanoelectromechanical system
Measuring technology and instruments
Photonics and optoelectronics
Computers, software and applications

Control and robotics
Power electronics and energy systems
Communications and networking
Signal and multimedia processing
Biomedical and health informatics
Smart grids and renewable energy
Computation intelligence in electrical engineering
Biomedical electronics and bioinformatics
Distributed generation, fuel cells and renewable energy systems
