

# CALL FOR PAPERS

**ICECFC 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECFC 2022 : International Conference on Error Control and Flow Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Error Control and Flow Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Error control	Error detection schemes
Types of error control	Repetition codes
Error control in communication networks	Parity bits
Communication networks	Checksums
Flow control	Cyclic redundancy checks
Error control codes	Cryptographic hash functions
Error control coding	Error-correcting codes
Error detection and correction	Error correction
Information theory and coding theory	Automatic repeat request (arq)
Implementation	Error-correcting code
Error control operators	Hybrid schemes
