

CALL FOR PAPERS

ICEE 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEE 2022 : International Conference on Energy Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy Electronics and Applications
Energy Converter Topologies
Resonant Converters
Converters for Special Applications
Energy Supplies
Advanced Energy Technologies
Battery and Fuel Cell Technology
Chemical Technology of Monocrystals
Controls and Power Electronics for Industrial Applications
Distributed Generation Systems
Electric Drives and Equipment
Electric Power Engineering
Energy Quality, EMC, Filtering and PFC

Energy Electronics in Electrical Energy, Generation, Transmission and Distribution
Energy Electronics for Renewable Energy Systems
Control of Energy Converters
Modeling and Simulation in Energy Electronics
Power Semiconductor Devices
Thermal Management
Electrical Drives
Design of Electrical Machines
Control of DC Drives
Control of AC Drives
Control of Stepping and SRM Drives
Sensors and Observers
Modeling and Simulation in Electrical Drives
