

CALL FOR PAPERS

ICESPET 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESPET 2022 : International Conference on Energy Systems, Power Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Systems, Power Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy efficiency and energy management
Renewable, green and alternative energy
The impact of climate change
Cogeneration and distributed generation
Smart grid and electric metering innovations
Integrated building automation and energy management
Lighting efficiency

HVAC systems and controls
Thermal storage and load management
Boilers and combustion controls
Solar and fuel cell technologies
Nuclear energy technologies
Applications specific to federal energy management programs
Energy project financing success strategies and incentives
