

CALL FOR PAPERS

ICFSF 2022
Sep 06-07, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSF 2022 : International Conference on Forensic Science and Fingerprint is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forensic Science and Fingerprint. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forensic science	Deciding under uncertainty
Expert witness	Statistics as evidence
Forensic science and statistics	Fingerprint
Evaluating evidence of emerging analytical technologies	Forensic evidence
Epidemiological evidence and the law	Friction ridges
Education of methods for evidence interpretation	Human or other primate hand
Communication between lawyers and experts	Fingerprint analysis
Legal versus scientific reasoning	The identification of gender by use of a fingerprint test
Quantifying evidential value	Identification and classification of individual fingerprints
DNA mixture interpretation	Dactyloscopy
Interpretation at activity level	Exemplar prints
Combining evidence	Electronic recording of fingerprint
Statistical and logical methods in law, legal and forensic sciences	Footprints
