

# CALL FOR PAPERS

**ICMBE 2022**  
**Sep 06-07, 2022**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBE 2022 : International Conference on Marine Biology and Evaluation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Biology and Evaluation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biology  
Marine life  
Evaluation  
Process of speciation  
Microscopic life  
Taxonomy of marine organisms  
Marine ecosystems  
Populations and ecology  
Distribution of organisms in a population  
Population growth  
Biological interactions  
Conservation of marine biodiversity  
Conservation of marine environment

Conservation of terrestrial environment  
Human impacts on the marine environment and management  
Environmental factors that affect marine organisms  
Plants and algae  
Invertebrates  
Fungi  
Vertebrates  
Fish  
Reptiles  
Birds  
Mammals  
Marine habitats  
Intertidal and near shore
